

EXHAUST GAS RECIRCULATION (EGR) VALVES

Precision Performance

FORD
6.0L

100% NEW COMPONENTS

DURAMAX
6.6L

Diamond Advantage[®] (DA) Exhaust Gas Recirculation (EGR) Valves help to maintain the combustion chamber temperature to reduce the formation of nitrogen oxides. The EGR valve also reduces the engine's octane requirements and lessens the danger of detonation (spark knock).

- Direct-fit replacement for ease of installation
- Calibrated to OEM specifications for precision performance
- Includes high-strength silicon diaphragms with steel reinforcement for extended service life
- Heavy-duty solenoids and stainless steel valve components ensure durability
- Comprehensive quality testing checks resistance, leakage, response and flow rates to ensure trouble-free operation

GIVE YOURSELF THE ADVANTAGE,
MILE AFTER MILE.

- ▶ High-quality parts meet or exceed OE specs
- ▶ Backed by Navistar
- ▶ No-risk and hassle-free core return
- ▶ Comprehensive two-year unlimited mileage warranty on parts with labor coverage for professional installers
- ▶ One-stop shop for Ford Power Stroke[®], GM Duramax[®] and Cummins diesel engines and engine components
- ▶ Technical support available at 855-465-6445
